

Blog article about the ACE Centre

Source:	Localhood.org
Date:	December 27, 2018
Abstract:	Centre Street, in the heart of Sai Ying Pun, is the steepest street in Hong Kong. So as you trudge up the hill past Third Street, you have to look up to see the head peeking out from a bench above. Nos. 11 and 12, which were designated for adaptive reuse, are occupied by the ACE Centre, an organization that promotes intergenerational activities.
