Dysphagia Management Training
October 2014

Dear Friends,

Happy New Year and welcome to the inaugural edition of the Mighty Oaks newsletter. Mighty Oaks, a registered Hong Kong charity, was established in 2014 to create enriching and lasting solutions to give hope and resources to vulnerable and needy elderly by transforming individual lives and communities.

We invite you to join hands with us in bringing dignity, purpose, hope and love to the elderly.

Please click [here](#) for our newly launched website where you will learn more about our Pillars of Service and Why We Support the Elderly. You can also hear from our beneficiaries and our volunteers too.

Over the year, we have organized three Eye Camps in which 198 needy elders have received the gift of sight from free cataract surgery. We are also excited to share that over 100 medical professionals from all over China were trained in dysphagia courses to help their patients to relearn how to use their swallowing muscles after they have been afflicted with stroke, Parkinson's, dementia or cancer of the throat.

We share some of our work with you in Photos and Videos, which we trust you will find meaningful. We hope that you will join us in one of our forthcoming service trips. We would be delighted if you could stay in touch and interact with us. Please like us on Facebook.

Finally, I wish to say that our success rests in the collaboration of volunteers, sponsors and friends. I look forward to working together with you in making a difference in the lives of the needy elderly.

Best wishes for 2016,

Poh Lee Tan
Founder and Director
